

Uncanny opportunities **TO REACH ALL NEW HEIGHTS**

The Karelia brand stands for uncompromising quality, professionalism and responsible care for nature and the forest. True to the principles of its founders, the company manufactures Finnish hardwood floors with pride.

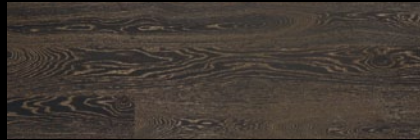

Karelia Hardwood floors from Finland represent innovation and design: we have been awarded the red dot design award in 2009 for Saima Design and in 2011 for the Karelia Impressio Series. Karelia offers a wide range of beautiful and trendy hardwood floors, for every type of home and every style of decór.

The Karelia hardwood floors are high quality. The sturdy cross-glued 3-layer structure provides durability. The middle layer made from slowly grown spruce comes from the harsh climatic conditions of Finland, resulting in strong stability. We practise strict quality control in our state-of-the-art ISO-certified production facilities. The raw material comes from well maintained forests and legal sources.

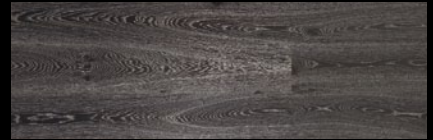

A Karelia Hardwood Floor is an environmentally sound choice: it can be repaired, reused and recycled. The Karelia Hardwood Floors are easy to install with durable mechanical locking system, Profiloc.

Karelia hardwood floors are made of real wood. Each floor is an individual work of art with its own personality, telling its own unique story. What would you like your floor to say about you? We hope that you find your personal favourite from our extensive selection of hardwood floors. Your home deserves quality you can rely on.

KARELIA HARDWOOD FLOOR FAVOURITES FROM WELCO

Euromaple Classic 3-strip

Due to the printing technology employed, the colours in the brochure may not look the same as the natural colour tones of the actual product. These pictures are illustrative and larger floor areas may contain colour variations and characteristics that are natural to the selection but which cannot be portrayed in small, sample images. We reserve the right to make changes.
